Mitchell Long

PROGRAMMER / UI DESIGNER

Profile

Adept in collaborating with clients to achieve goals and deadlines. Dedicated to remaining up to date with the latest UI/UX trends. Programmer striving to make the world a more intuitive place. A creative thinker, adept in software development and working with various languages and concepts.

Employment History

Intern, Preferred Healthcare Staffing, San Diego

- Merged new data with existing data sets while being careful to keep old data sets and documentation.
- Created scripts to automate menial tasks.
- Worked independently and collaborated with others on projects.

Intern, Orca Systems

- Continually identified areas of both front-end and back-end needing improvement and increased efficiency.
- Utilized excellent problem-solving and debugging skills.

Education

High Tech High Mesa, San Diego

AUGUST 2019 — JUNE 2023

Dual Enrollment, San Diego Mesa College

AUGUST 2020 — JUNE 2023

- San Diego Mesa College Deans List

Dual Enrollment, University of San Diego

AUGUST 2022 — JUNE 2023

Projects

Online GPX Converter

A back-end project that converts GPX, GPS Exchange Format, and converts the data into a human-readable excel sheet. The project uses *Django*, *HTML*, and *tailwind*.

Portfolio

A front-end project that calls the GitHub API to get projects and display them on a clean layout.
